

Lechler, creating a history of  
paints and coatings since 1858.

For the history and technological conquests, Lechler has always been a reference brand in the sector of international AUTOMOTIVE.

The main technical developments have seen LECHLER present to the market, often in advance, materials, innovative systems and high technology services.

Ongoing investment in research and precise and constant technological updating, meets the needs of a constantly evolving, increasingly demanding and sophisticated field.

*Your Best Practice Evolving* is the Lechler value proposition for Refinish. It is achieved by using the LECHLER SYSTEM: mixing machines, color equipment, training and support services.

Caring about the differences!

# CHREON

## Italian styled coatings for habitat

Since 2013 IVE is a Lechler brand specialized in HABITAT.

With more than 70 years' experience in Brianza (next to Milan), heart of the worldwide well known Made in Italy furniture industry, IVE is proposing as the ideal partner for painting cycles for furniture and qualified assistance services for any type of industrial plant.

## Lechler, creating a history of paints and coatings since 1858.

Since 1858 millions of clients have chosen Lechler paints in the Industry, Refinish, Decorative, Yachting and Habitat sectors identified by the Group's five brands. Today more than six hundred people are committed to the research, development, production and marketing of paints as well as training for users. Lechler's Head Office is located in Como, Italy and there are also three Italian production facilities in the cities of Como, Seregno and Foligno. In the rest of Europe the company has four subsidiaries: Manchester (UK), Grenoble (France), Barcelona (Spain) and Kassel (Germany). In Brazil it operates through the production facility and branch based in Par  (Rio Grande do Sul) and through branches in Rio Negrinho (Santa Catarina), Tocantins (Minas Gerais) and Paul nia (S o Paulo).

Lechler, through the Centre for Excellence, provide its customer with a high level Training Center for professional training and updating, dealing with competence and preparation and all the news regarding technological development.

For over a century, we have been promoting the culture of colour. We know the language, and the neologisms; we study the trends and future scenarios. But above all, we own the technology to produce all these things. Finally, the "colour idea" has become a determining element in the design of a space, room or object.

**...and we won't stop colouring the world.**
