# #SOEASY

Easy
Efficiency

COLOR MATCH EASY
MAP Spectrophotometer

The selection of the most suitable colour
now made even **easier** with the new
modular automatic search **system!**

LECHLER

Caring about the differences!

COLOUR BECOMES EASY

This tool speeds up
the colour selection by quickly identifying
the **most efficient** solution for your repair!

COLOR MATCH EASY
MAP Spectrophotometer

**Is the new colour selection
and correction system for the refinish sector,
based on a large and ever-enlarging database.**

The new software interface is now completely
integrated inside the **Lechler MAP
Color&Product Management** platform and
can operate in two different modes,
meeting different sector needs.

Easy Mode
designed to give the painter a simple
and alternative tool to colour collections
READING ‣ SEARCH/AUTOMATIC CORRECTION ‣ DOSAGE

Advanced Mode
designed to give the painter/distributor
a more advanced and high performing tool
than colour collections alone
READING ‣ SEARCH ‣ AUTOMATIC CORRECTION
CORRECTION ON SMALL PANEL ‣ DOSAGE

www.so-easy.org

CMEasy now makes use of a new
multi-angle spectrophotometer fitted with:

• **Touch Screen** (for easier naming and
  management of the reading)
• **Led indicators** (for easier positioning
  of the spectrophotometer)
• **Rechargeable battery via USB**
  (for easier tool handling)
• **WIFI system** (for easier reading
  transmissions to the PC)

The version of Lechler MAP containing
the **CMEasy** module is also fully
compatible with the CME
spectrophotometer model **(code 99771)**.
It is sufficient to update the Lechler MAP
software with the new release**.**

*There is NO right process
for ALL repairs, but there is a
RIGHT process for EVERY repair*
