

LW²

WOOD & WATER

LW² Wood & Water
is IVE's water-borne
tintometric system
intended to realise 'Italian
Style' colours
for the Interior Design sector

Furniture manufacturers, Style Centres, Applicators,
Designers and Architects:
the desire for colours and effects is increasingly growing!

IVE has developed a tool allowing you
to meet it:

LW² Wood & Water: a water-borne tintometric system
to realise pastel and effect coloured finishes
for furniture manufacturers,
furnishing accessories and Habitat components.
The innovative and original IVE proposals
**in a very rich choice of finishes in thousands of
colours** can be obtained **JUST IN TIME** in the most
important international colour selections and standards,
and in the most popular colours used by the furniture
market, but above all in the original pastel and effect
colour collections studied by IVE for the sector.

The **Distributor becomes a Manufacturer** thanks to
a complete and reliable tool equipment that allows to
develop, manage and monitor all stages of production,
keeping products, prices and any information concerned
under control.

IVE for Trade:

from Distributor to Manufacturer
with LW² Wood & Water

LWE

WHAT CAN BE PAINTED?

IVE finishes obtainable with LW² Wood & Water are indicated for the painting of all materials used in the sector: wood, glass and composite materials; they are integrated within the main IVE painting processes for furniture such as **wardrobes, kitchens, bathrooms, chairs, tables, interior doors, articles turned on a lathe, profiles, frames, three-dimensional manufactured items and furnishing accessories in general.**

IVE develops high quality painting solutions with innovative chromatic proposals that enhance the manufactured items on which they are applied; they can be used in all painting processes improving their production efficiency;

IVE products are environment-friendly and meet the highest performance standards of the sector.

IN WHAT COLOURS?

The LW² Wood & Water system does not set any colour limits! It is possible to reproduce the thousands of colours and effects of the most important international colour standards in the sector as well as the original IVE chromatic proposals and collections or to formulate and correct any tone according to the sample.

The quality of the finishes obtainable with the system meets **the highest quality standards for resistance, reliability and colour matching.**

With IVE products from the LW² Wood & Water system it is possible to realise colours of international standard colour charts:

- NCS
- RAL 841-GL
and chromatic proposals from
- COLOR TREND HABITAT 2
- ARCHITECTURAL
- NEW MASTER CHROMA ADVANCED

For over 5.000 pastel, metallic and micaceous colour references to which you can add.... all your colours according to the sample!

COLOR DESIGN: A BOUNDLESS COLOUR PROPOSAL

As regards aesthetics LW² Wood & Water tintometric system is a perfect solution to reproduce colours from the collection Color Trend Habitat 2.

THE EQUIPMENT PROVIDED

LW² Wood & Water is a tintometric system composed of **tinters** and **pre-dosed** binders.

Through the equipment provided it is possible to manage all the production steps: from the choice of colour to the packaged product. The finished product will be available in original customised IVE packaging labelled with the correct technical, safety and packaging information. A quick, rational and effective production process which minimises time and waste.

The production equipment that allows you to meet '**just in time**' the market demands is composed of:

- Manual **tinting equipment**
- **Automatic dosing machine** with high productivity and efficiency
- 7 and 35kg **electronic scale**
- **Mixer**
- **Spectrophotometre**
- **Lechler Color Reader** (electronic colour selector)
- **Software Lechler MAP®** for PC

The SW allows to develop, manage and monitor all stages of production, keeping products, prices and any information concerned under control:

- realisation of **standard** and **customised colours** through Lechler Color Reader
- management of **prices** and **conditions of sale** of finished or ready-for-use products
- **printing of finished** product labels with commercial, technical and safety information
- management of **production batches**
- **printing of technical and safety data sheets**
- **creation of production folders** per customer, product and sector
- management of product stocks

LW²
WOOD & WATER

LW² WOOD & WATER

LW² WOOD&WATER IS COMPOSED OF TWO MODULES:

LW² Wood & Water PASTEL COLOURS

22 tinters with a high pigment concentration and pre-dosed neutral binder resins from which you can derive a range of finished products that allow you to propose various technical and aesthetic solutions such as:

- Finishes with different aesthetic aspect: gloss, matt, satin
- Products useable for different application systems: manual, airmix and curtain coating
- Suitable products for painting open- or close-grained wood species, composite materials and glass with various painting processes

LW² Wood & Water EFFECT COLOURS

25 transparent and effect tinters,

that complete the pastel range LW² Wood & Water to be added to specific binders and derive a range of finished products: these can be applied on different substrates with special effects in different painting processes:

- Metallic, pearl and micaceous effects
- On open- and close-grained wood
- On glass
- One- or two-coat systems even with UV finish
- Gloss, matt and satin effects

IVE - ITALIAN STYLED COATINGS FOR HABITAT

IVE is the specialist brand of the Lechler group for the **WOOD** sector.

With over 80 years of experience developed in Brianza, cradle of the **Made in Italy** furniture industry and spread all over the world, proposes itself as the ideal partner to offer to the furniture sector painting processes and qualified assistance services for any type of industrial plant.

Italian styled coatings for habitat
80th anniversary

IVE - THE HISTORY

IVE was born in 1941 in Seregno.

Since 2003 IVE has also been present on the Brazilian market.

In 2013 IVE became part of the **LECHLER** group, an Italian company established at European level operating in the international market of paints in the Industry, Refinish, Decorative and Yachting sectors.

Lechler is present in Italy with the production sites of **Como**, **Seregno** and **Foligno** and in Europe in the four European subsidiaries of **Manchester** (UK), **Grenoble** (France), **Barcelona** (Spain) and **Kassel** (Germany).

IVE operates in Brazil through the company Lechler do Brasil with its headquarters in **Paulínia** (São Paulo), the **Parai** plant (Rio Grande do Sul) and the subsidiaries in **Tocantins** (Minas Gerais) and **Rio Negrinho** (Santa Catarina).
