Caring about the differences!

First in everything!

MACROFAN PRIMA UHS CLEARCOAT

Two-pack Ultra High Solid Acrylic Clearcoat formulated with raw materials deriving from renewable sources with a high aesthetic appearance and fast drying, ideal for all types of repairs.

THE IDEAL SOLUTION FOR THOSE LOOKING FOR MAXIMUM SUSTAINABILITY AND HIGH PERFORMANCE

Lechler further expands the proposal in the field of UHS Clearcoats to guarantee an **even more sustainable solution suitable for any repair and in any condition.**

- **SIMPLICITY:** in preparation (2:1 ratio, without additional reducers/additives) and in application
- **AESTHETIC APPEARANCE:** high gloss and full-bodied film applied without absorption over time
- **SPEED:** fast drying at just 40–50°C
- **ENVIRONMENTAL SUSTAINABILITY:** low VOC level of the product and 30% of raw materials from renewable sources

MACROFAN PRIMA UHS CLEARCOAT allows you to MINIMIZE THE ENVIRONMENTAL IMPACT, also thanks to its **BIO-BASED***, while maintaining high standards of PRODUCTIVITY and final QUALITY of the repair.
